### Primary Programme (5-11)

#### Are you wanting to expand your own horizon?

Primary and Secondary School Centred Initial Teacher Training.

“

It is the most rewarding thing  
I have ever done in my life.  
I smile like this every day!  
If you get it right, that  
balance, it makes your day  
worthwhile. I can't stress  
enough how amazing this  
SCITT Programme has been.

- Victoria

It is essential to us that you feel supported throughout your training year and beyond. You will be allocated a school based mentor who will meet with you for at least an hour each week. They will support you in meeting the Teachers' Standards, including: lesson planning; assessment; behaviour management strategies and meeting the needs of all students. This will be in addition to the host teacher(s) who will be in your lessons as you teach and who will also give you weekly feedback to support your progress.

You will be assigned a visiting phase/subject tutor who will visit you at least once every half term to monitor your progress towards meeting the Teachers' Standards. This will include observing your teaching; looking at examples of your planning and assessment over time to identify the progress of the students and the impact of your teaching; meeting and observing with your mentor and reading your portfolio of evidence. As a partnership we will signpost employment opportunities and support you throughout your first year of teaching and beyond.

Our partnership covers West Yorkshire and Oldham and we work with a diverse range of schools to ensure that the schools based programme is as enriching as possible.

### Primary Programme (5-11)

#### Are you wanting to join the best profession in the world?

Primary and Secondary School Centred Initial Teacher Training.

The Huddersfield Horizon SCITT is part of South Pennine Academies and whilst based at the BRAND NEW MULTI MILLION POUND BUILD that is Beaumont Primary Academy, also works with secondary and primary schools in the Partnership, based around West Yorkshire, Oldham and Calderdale. Our Partnership schools include a range of settings from semi-rural to inner city schools to provide our trainees with a diverse teaching experience. In 2017-2018 trainees cited that their host schools were supportive, always willing to help and were given all the tools they needed to 'be a teacher'.

The Partnership also provides weekly core training from facilitators who are inspirational and that encourage our trainees to feel safe taking risks and to develop a fluent teaching style.

We pride ourselves on our bespoke and 'round the clock' support for each individual trainee so they have the confidence and competence to flourish not only in their first year of teaching but in years to come. We consider that our trainees will be life changers and leaders of the future and we will support YOU beyond your training.

Our Initial Teacher Training programme lasts for a full academic year. Trainees are placed in a main host school on the first day of the school year. It is important that trainees experience the full cycle of a school year and feel included/part of the school and the staff team. As a trainee, you will be in your main school for four days a week and on the fifth day you will attend core training at the SCITT centre. In addition you will have a second teaching placement for half a term in a contrasting school and a further experience of a special school setting (between 1-2 weeks) and opportunities to explore the Key Stages prior to and post your own phase.

#### Do you have the passion, empathy and knowledge to make a difference to the lives of young people?

Here at the Huddersfield Horizon SCITT, we firmly believe that young people have the fundamental right to the BEST education, led by the BEST practitioners. We are strongly committed to recruiting the most passionate and dedicated people to join our professional and supportive teacher training programme.
